✓ **Difficulties:**

1. **Time management:** Due to our busy schedules and the tight time we had to work on the progress of this project as well as the free time of each individual member, it was difficult for us to keep up with the deadlines as well as finishing every other task we have at hand. Fortunately, we managed to figure it out and finish all the work on the specified deadline.
2. **The lack of communication:** face-to-face meetings were a rarity. That leads to a lot of misunderstandings using the other forms of communication (WhatsApp, Discord), as well as finding the proper time to have those virtual meetings. Luckily, we overcame that challenge and managed to keep the progress running smoothly.

✓ **Pending tasks:**

1. Status Report [2].
2. Presenting the Project

✓ **Next planned tasks:**

1. Status Report [2]
2. Project presentation.

✓ **Number of group meetings you had during the specified time:**

The table below shows the number of meetings held to complete a task. The group meetings mainly held in “Discord”, but there exist some informal meetings in college. We were always in touch through social media such as “WhatsApp.”

Task	# of meetings
Define the Project	1 online meeting + 1 informal in college meeting
Project Proposal	1 online meeting + 2 informal in college meetings
Submit Project Management Plan [SPMP]	2 online meetings + 2 informal in college meetings
Submit Project Requirements [SRS]	2 online meetings + 1 informal in college meetings
Submit a status report	1 online meeting
Submit Project Design [SDS]	2 online meetings + 1 informal in college meetings
Submit Project Test Plan [STS]	2 online meetings
Submit a Status Report	1 online meeting

✓ **Attached document(s):**

None.

✓ **Additional notes:**

We worked together using shared documents, reading each other's work in real time, adding comments, and editing suggestions in order to come up with the best version of the work.
